L'ANTIC COLONIAL

General Catalogue 2017

**”You must look ahead in
order to move forward.
You can only make progress
when you think big“**

”Sólo es posible avanzar cuando se mira lejos.
Sólo cabe progresar cuando se piensa en grande“

.....

”Regarder au loin pour mieux avancer.
En visant haut on ne peut que progresser“

José Ortega y Gasset

The Global Compact

The Global Compact is a voluntary initiative via which L'ANTIC COLONIAL S.A. and other participating companies undertake to align their operations and strategies with ten universally accepted principles in the areas of human rights, labour, the environment and anti-corruption. In terms of the number of participants, with six thousand in over 135 countries, the Global Compact is the world's largest corporate citizenship initiative. It is a framework for action aimed at boosting the social legitimacy of corporations and markets. Those companies that adhere to the Global Compact share the conviction that business practices based on universal principles contribute to building a more stable, equitable and inclusive global market that promotes more prosperous societies.

Businesses, trade and investment are basic cornerstones in ensuring peace and prosperity. However, in many areas, business is frequently associated with serious dilemmas such as exploitation, corruption, inequality and obstacles that hinder innovations and entrepreneurialism. Corporate social responsibility builds trust and social capital, while contributing to development and sustainable markets.

El Pacto Mundial es una iniciativa voluntaria, en la cual L'ANTIC COLONIAL S.A. junto a las demás empresas participantes se comprometen a alinear sus estrategias y operaciones con diez principios universalmente aceptados en cuatro áreas temáticas: derechos humanos, estándares laborales, medio ambiente y anti-corrupción. Por su número de participantes, seis mil en más de 135 países, el Pacto Mundial es la iniciativa de ciudadanía corporativa más grande del mundo. El Pacto es un marco de acción encaminado a la construcción de la legitimación social de las corporaciones y los mercados. Aquellas empresas que se adhieren al Pacto Mundial comparten la convicción de que las prácticas empresariales basadas en principios universales contribuyen a la construcción de un mercado global más estable, equitativo e incluyente que fomentan sociedades más prósperas.

Las empresas, el comercio y la inversión son pilares esenciales para la paz y prosperidad. Pero en muchas áreas las empresas están ligadas a serios dilemas, como pueden ser la explotación, la corrupción, la inequidad y otras barreras que frenan la innovación y el espíritu empresarial. Las acciones empresariales responsables construyen confianza y capital social, al mismo tiempo que contribuyen al desarrollo y mercados sustentables.

Le Pacte Mondial est une initiative à caractère facultatif dans le cadre de laquelle L'ANTIC COLONIAL S.A. et les autres entreprises participantes s'engagent à aligner leurs stratégies et opérations sur dix principes universellement admis dans quatre domaines thématiques : droits de l'homme, normes du travail, environnement et lutte contre la corruption. Le nombre de ses participants, six milles dans plus de 135 pays, fait du Pacte Mondial l'initiative de citoyenneté corporative la plus importante du monde. Le Pacte est un cadre d'action visant à la construction de la légitimation sociale des entreprises et des marchés. Les entreprises qui adhèrent au Pacte Mondial partagent la conviction que les pratiques commerciales et industrielles fondées sur des principes universels contribuent à la construction d'un marché global plus stable, équitable et intégrateur qui favorise une plus grande prospérité des sociétés.

Les entreprises, le commerce et les activités d'investissement constituent des piliers essentiels de la paix et de la prospérité. Mais les entreprises sont confrontées à de grands dilemmes dans de nombreux domaines, comme par exemple l'exploitation, la corruption, l'injustice et d'autres barrières qui freinent l'innovation et l'esprit d'entreprise. Les actions des chefs d'entreprise responsables développent la confiance et le capital social, tout en contribuant au bien-être et à des marchés plus durables.

NATURAL STONE

L'Antic Colonial stone is a natural product which may be subject to shade variations. The colour of the material supplied may differ slightly from that shown.

Our website (<http://anticcolonial.com/piedra-natural/en/natural-stone/>) contains further information in respect of our stone products, such as installation guides and videos, technical data sheets, details on larger format, textures or recommendations for use.

Todas las piedras de L'Antic Colonial son productos naturales que pueden sufrir variaciones de tono. El color del material servido puede no ser exactamente igual al de la muestra.

En nuestra página web (<http://anticcolonial.com/piedra-natural/>) encontrará información adicional de nuestras piedras como guías y vídeos de instalación, fichas técnicas, tablas de mayor formato, texturas o recomendaciones de uso.

Toutes les pierres de L'Antic Colonial sont des produits naturels qui peuvent subir des variations de tonalité. La couleur du matériau fourni peut être légèrement différente de celle de l'échantillon.

Sur notre site Internet (<http://anticcolonial.com/fr/pierre-naturelle/>), vous trouverez des informations supplémentaires sur nos pierres: manuels et vidéos d'installations, fiches techniques, tableaux avec les formats disponibles, textures ou recommandations d'utilisation.

NATURAL STONE / PIEDRA NATURAL / PIERRE NATURELLE

REMEMBER

All natural products are perfectly imperfect. The differences found between pieces make each piece unique and unrepeatable. This feature is **NOT A PRODUCT DEFECT** but an inherent part of the beauty of the product.

If we are able to convey an understanding of the features of our products, we are sure that we will be able to meet all your expectations as regards quality and beauty. This is why it is essential that you are aware that you are buying a natural product, the characteristics of which may, on occasions, include:

1.- Pinhole cavities filled with grout

The surface of some materials, as for example the travertines, is covered with pinhole cavities. These cavities are treated with a grout, as similar as possible in colour to that of the stone. This characteristic is part of the nature of the product and at no time is it a sign of a defective product.

2.- Repaired fissures or cracks

It is normal for small cracks to appear on the surface of the stones. These are repaired with resins. This helps to strengthen the stone and increase its subsequent performance. This characteristic occurs frequently in natural products and should be taken into account when selecting products for a project.

3.- Changes in shade

All the natural products vary in shade and in the structure of the piece. The pieces undergo an exhaustive sorting process at L'Antic Colonial and any that do not meet our exacting quality standards are rejected. Possible variations are listed in the technical specifications of the products. If you have chosen one of our products for your project, we suggest you request photos of the panels or a few square metres of sample before making your purchase.

“IF YOU INVEST IN BEAUTY, IT WILL REMAIN WITH YOU FOR THE REST OF YOUR LIFE”

Frank Lloyd Wright

A TENER EN CUENTA

Todos los materiales naturales son perfectamente imperfectos. La variación existente entre piezas hace que cada una de ellas sea única e irreplicable. Esta característica **NO ES UN DEFECTO DEL MATERIAL** sino una parte inherente de la belleza del producto.

Si somos capaces de trasladarle las características de nuestros productos estamos convencidos que cubriremos sus expectativas en cuanto a calidad y belleza. Por ello es muy importante que entienda que está comprando un producto natural cuyas características incluyen en algunos casos:

1.- Coqueas rellenas de masilla

Algunos materiales, como por ejemplo los travertinos, presentan coqueas en su superficie. Estas cavidades se tratan con una masilla del color posible más parecido al de la piedra. Esta característica forma parte del material y en ningún momento indica que se trata de un producto defectuoso.

2.- Fisuras o grietas reparadas

En la superficie de las piedras suelen aparecer grietas que son reparadas con resinas. De este modo se refuerza la pieza y se aumenta su rendimiento posterior. Esta característica es muy común en la mayoría de productos naturales y se debe tener en cuenta a la hora de seleccionarlos para un proyecto.

3.- Variación de tonalidad

Todos los materiales naturales varían tanto en tono como en la propia estructura de la pieza. Desde L'Antic Colonial se realiza una exhaustiva clasificación mediante la que se eliminan los elementos que no superan nuestros estándares de calidad.

En las fichas técnicas de nuestros productos se muestran las posibles variaciones de los mismos. Si ha seleccionado uno de nuestros materiales para su proyecto, le recomendamos que solicite imágenes de las tablas o unos metros cuadrados de muestra antes de realizar la compra.

“SI INVIERTES EN BELLEZA, ÉSTA TE ACOMPAÑARÁ EL RESTO DE TU VIDA”

Frank Lloyd Wright

À PRENDRE EN COMPTE

Tous les matériaux naturels sont parfaitement imparfaits. La variation existante entre les pièces les rend uniques. Cette caractéristique **N'EST PAS UN DÉFAUT DU MATÉRIAU** mais une part inhérente de la beauté du produit.

Si nous sommes capables de vous transmettre les caractéristiques de nos produits, nous sommes persuadés que nous répondrons à vos attentes en termes de qualité et beauté. Pour cela il est très important que vous compreniez que vous achetez un produit naturel dont les caractéristiques incluent dans certains cas:

1.- Alvéole remplies d'enduit

Certains matériaux, comme par exemple les travertins, présentent des alvéoles en surface. Ces cavités sont traitées avec un enduit d'une couleur la plus proche possible de la pierre. Cette caractéristique est inhérente au matériau et n'indique absolument pas qu'il s'agit d'un produit défectueux.

2.- Fissures ou craquelures réparées

Des fissures apparaissent souvent sur la surface des pierres et sont traitées avec des résines. La pierre est ainsi renforcée et son rendement ultérieur accru. Cette caractéristique est très commune sur la majorité des produits naturels et doit être prise en compte au moment de la sélectionner pour un projet.

3.- Variation de tonalité

Tous les matériaux naturels varient à la fois au niveau du ton et de la structure même de la pièce. Chez L'Antic Colonial nous procédons à un classement exhaustif qui permet d'éliminer les éléments qui ne répondent pas à nos standards de qualité.

Sur les fiches techniques de nos produits sont indiquées leurs variations éventuelles. Si vous avez sélectionné l'un de nos matériaux pour votre projet, nous vous recommandons de demander des images des lames ou quelques mètres carrés d'échantillon avant de réaliser votre achat.

“SI VOUS MISEZ SUR LA BEAUTÉ, ELLE VOUS ACCOMPAGNERA LE RESTE DE VOTRE VIE”

Frank Lloyd Wright

Bioprot

A new waterproofing process for stone which improves the qualities of natural stone. The layer, which to date has only been applied to the upper surface, is now applied to the remaining faces of each of the pieces on the L'Antic Colonial production line. As a result, all sides, including the underside of the piece, now possess the same qualities as the surface.

This technological advance stems from research aimed at completely protecting all L'Antic Colonial pieces from the possible effects of glues, adhesives or the floor's moisture content, both at the time of installation and with the least possible effect over time.

It should be borne in mind that all natural stone, depending on type, has a degree of porosity, which is an intrinsic characteristic of natural stone. With this new process, we have sought to protect the faces so that external factors do not alter the qualities of natural stone.

El nuevo proceso de impermeabilización de la piedra mejora las características propias de la piedra natural. A la capa aplicada hasta ahora sobre la superficie útil, se le suma el mismo proceso en el resto de caras de cada una de las piezas que pasan por la línea de producción de L'Antic Colonial, con lo que todos los laterales de la pieza y la cara inferior de la misma pieza, acaban teniendo las mismas características que hasta ahora tenía sólo la cara superficial.

La evolución viene dada por la búsqueda de la protección total de cada una de las piezas que produce L'Antic Colonial, y así evitar que cualquier posible afectación por las colas, cementos o humedades del suelo en el momento de la instalación, afecten el mínimo posible con el paso del tiempo.

No hay que olvidar que en función del tipo de piedra natural, esta tiene un grado de porosidad, característica intrínseca de la piedra natural, con lo que con este nuevo proceso, lo que se busca es la protección de la superficie para que los agentes externos no alteren las características de la misma piedra natural.

Le nouveau processus d'imperméabilisation de la pierre améliore les caractéristiques propres à la pierre naturelle. Outre la couche appliquée jusqu'à présent sur la surface utile, le même procédé est ajouté à toutes les autres parties de chacune des pièces qui passent par la ligne de production de L'Antic Colonial. Par conséquent, tous les côtés et la face inférieure des pièces ont désormais les caractéristiques que possédaient jusqu'à présent la partie superficielle uniquement.

Cette évolution est le fruit de la recherche d'une protection totale pour chacune des pièces produites par L'Antic colonial. L'objectif est de faire en sorte que les éventuels défauts dus aux colles, aux ciments, à l'humidité du sol au moment de la pose aient un impact minimum sur la durée.

Il est important de savoir qu'en fonction du type de pierre naturelle, celle-ci a un degré de porosité, ce qui est l'une de ses caractéristiques intrinsèques. Le but est de protéger la surface pour que les agents externes altèrent le moins possible ses caractéristiques.

FINISHES / ACABADOS / FINITIONS

**ANTI-KATO**

The stone is naturally aged to give it a warm, traditional look.

Las piezas se envejecen de manera natural para conseguir una estética cálida y tradicional.

Les pièces sont vieillies de façon naturelle pour obtenir une esthétique chaude et traditionnelle.

**TEXTURE**

A natural, rustic finish with a rough, grooved texture is achieved by pounding the stone with pointed machine heads.

Acabado rústico y natural con textura estriada y rugosa logrado por medio del golpeo con cabezales en forma de punta.

Finition rustique et naturelle d'une texture striée et rugueuse, obtenue en frappant le matériau avec des têtes en forme de pointes.

**FLAMED**

Featuring a rough texture, achieved through exposure to fire.

Textura rugosa conseguida con la exposición al fuego.

Texture rugueuse obtenue par exposition au feu.

**FLAMED HOME**

Featuring a rough texture, achieved through exposure to fire and mechanical brushing.

Textura rugosa conseguida con la exposición al fuego y cepillada mediante cepillos mecánicos.

Texture rugueuse obtenue par exposition au feu et brossage au moyen de brosses mécaniques.

**SAND FINISH**

Featuring a rough surface achieved by sandblasting stone.

Conseguimos superficie de rugosidad mediante chorro de arena.

Surface à rugosité obtenue par j

rugosité
et de sable.

NATURAL

The natural relief surface of slate and quartzite is conserved, although the inner sides are calibrated to make the stone easy to lay.

En pizarras y cuarcitas se conserva el relieve natural de la piedra, a su vez, la cara interior se calibra para optimizar su instalación.

Sur les ardoises et les quartzites, conserve le relief naturel de la pierre. En même temps, la face intérieure est calibrée an d'optimiser sa pose.

CLASSICO

Featuring a mechanically achieved satin finish.

Se caracteriza por un acabado satinado conseguido por procedimientos mecánicos.

Se caractérise par une finition satinée obtenue en appliquant des procédés mécaniques.

PULIDO

Featuring a mechanically achieved high-gloss finish.

Se caracteriza por un alto brillo conseguido por procedimientos mecánicos.

Se caractérise par un brillant élevé obtenu en appliquant des procédés mécaniques.

HOME

Through mechanical brushing, a smooth, satin, silky finish is achieved. Practical and easy to care for, it can be used on walls and floors.

Por medio de cepillos mecánicos se logra un acabado sedoso, suave y satinado, muy práctico y de fácil mantenimiento tanto para paredes como para suelos.

Des brosses mécaniques permettent d'obtenir une finition soyeuse, douce et satinée, très pratique et facile à nettoyer, aussi bien sur les murs que sur les sols.

DESCRIPTION OF ICONS / DESCRIPCIÓN DE ICONOS / DESCRIPTION DES ICONES

IRREGULAR TEXTURE

Material that stands out for having an asymmetrical surface.

TEXTURA IRREGULAR

Material que destaca por tener una superficie asimétrica.

TEXTURE IRRÉGULIÈRE

Matériau qui se distingue par sa surface asymétrique.

GLOSS

Material with surface with the ability to produce reflections.

BRILLO

Material cuya superficie tiene la capacidad de producir reflejos.

ÉCLAT

Matériau dont la surface est en mesure de produire des reflets.

MATT

Material with a gloss-free surface.

MATE

Material cuya superficie carece de brillo.

MAT

Matériau dont la surface n'est pas brillante.

BEVEL

Beveled cut on all 4 edges of the piece for emphasizing size and preventing quick damage due to the material wear and tear.

BISEL

Corte oblicuo realizado en los 4 bordes de la pieza para resaltar el tamaño y evitar el rápido deterioro por desgaste en el material.

BISEAU

Coupe oblique réalisée sur les 4 bords de la pièce pour en mettre valeur la dimension et éviter la détérioration rapide due à l'usure du matériau.

BIOPROT

Protection that reduces drastically the emergence of most common household bacteria.

Protección que reduce radicalmente la aparición de las bacterias domesticas mas comunes.

Protection qui réduit de façon radicale l'apparition des bactéries domestiques les plus communes.

STRONG COLOR VARIATION

There are considerable color changes between pieces.

VARIACIÓN DE TONO FUERTE

Existen cambios de color importantes entre piezas.

FORTE VARIATION DE TONALITÉ

Il existe d'importants changements de couleur entre les pièces.

MODERATE COLOR VARIATION

There are consistent color changes between pieces.

VARIACIÓN DE TONO MODERADA

Existen cambios de color regulares entre piezas.

VARIATION DE TONALITÉ MODÉRÉE

Il existe des changements de couleur réguliers entre les pièces.

SLIGHT COLOR VARIATION

There are slight color changes between pieces.

VARIACIÓN DE TONO LIGERA

Existen cambios de color suaves entre piezas.

LÉGÈRE VARIATION DE TONALITÉ

Il existe de légers changements de couleur entre les pièces.

NO COLOR VARIATION

No changes in color between pieces.

SIN VARIACIÓN DE TONO

Sin cambios de color entre piezas.

SANS VARIATION DE TONALITÉ

Sans changement de couleur entre les pièces.

LOW TRAFFIC

Material only suitable for low-traffic floors (private setting).

BAJO TRANSITO

Material indicado sólo para suelos con poco trasiego (ámbito privado).

FAIBLE PASSAGE

Matériau indiqué uniquement pour les revêtements de sols de pièces à faible passage (domaine privé).

MEDIUM TRAFFIC

Material suitable for floors with a considerable use (private setting in high-traffic rooms).

MEDIO TRANSITO

Material indicado para suelos con un uso considerado (ámbito privado en estancias con mucho uso).

PASSAGE MOYEN

Matériau indiqué pour les sols utilisés fréquemment (domaine privé dans des pièces très utilisées).

HIGH TRAFFIC

Material suitable for floors with constant use (public setting).

ALTO TRANSITO

Material indicado para suelos con un uso constante (ámbito público).

PASSAGE ÉLEVÉ

Matériau indiqué pour les sols utilisés constamment.

ORIGIN EUROPE

Material from a European country.

PROCEDENCIA EUROPA

Material procedente de algún país europeo.

PROVENANCE EUROPÉENNE

Matériau en provenance d'un pays européen.

ORIGIN AMERICA

Material from an American country.

PROCEDENCIA AMÉRICA

Material procedente de algún país americano.

PROVENANCE AMÉRICAINNE

Matériau en provenance d'un pays d'Amérique.

ORIGIN ASIA

Material from an Asian country.

PROCEDENCIA ASIA

Material procedente de algún país asiático.

PROVENANCE ASIATIQUE

Matériau en provenance d'un pays asiatique.

Dilution / Dilución / Diluer 1:20
One litre covers / Rendimiento / Rendement de 200 m²/L

Wax with matt finish for paving that makes cleaning and standard maintenance easier. / Cera efecto mate para pavimentos que facilita la limpieza y el mantenimiento ordinario. / Cire effet mat pour revêtements qui facilite le nettoyage et l'entretien ordinaire.

FILA MATT IL

100086923 - L180300230 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 20 m²/L

Glossy-look self-polishing wax for paving that makes cleaning and standard maintenance easier. / Cera auto abrillantadora efecto brillante para pavimentos que facilita la limpieza y el mantenimiento ordinario. / Cire auto-lustrante effet brillant pour revêtements qui facilite le nettoyage et l'entretien ordinaire.

FILA LONGLIFE IL

100086922 - L180300229 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 30-40 m²/L

Water-based waterrepellent protection that prevents efflorescence, ageing and decomposition of the product. / Hidrófugo antisalitre base acuosa que evita el envejecimiento y la descomposición del material. / Hydrofuge anti-salpêtre à base aqueuse qui évite le vieillissement et la décomposition du matériau.

FILA HP98 IL

100086919 - L180300227 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m²/L

Stain protection that does not alter original tone, texture or colour of the product. / Protector anti manchas que protege sin cambiarle el tono ni la textura, ni el color del material. / Protecteur anti-taches qui protège sans modifier le ton, la texture ou la couleur du matériau.

FILA FOB IL

100086920 - L180300231 - G-163

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m²/L

Anti-ageing water-repellent protection for interior and exterior surfaces. / Hidrófugo anti-envejecimiento para interiores y exteriores. / Hydrofuge anti-vieillesissement pour intérieurs et extérieurs.

FILA HYDROREP IL

100095177 - L180001173 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m²/L

Colour-enhancing protection for all types of polished, honed, rough and tumbled natural stone. / Protector reavivante que exalta el color original de todo tipo de piedras naturales, tanto pulida como apomazada, envejecida, abujardada, etc. / Protecteur ravivant qui rehausse la couleur d'origine de tout type de pierres naturelles, qu'elles soient polies ou poncées, vieilles, bouchardées, etc..

FILA STONE PLUS IL

100086921 - L180300228 - G-163

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 15-50 m²/L

Pleasant wet-look glossy protection. / Protector que proporciona un agradable efecto mojado con brillo. / Protecteur qui offre un agréable effet mouillé brillant.

FILA WET IL

100098018 - L180300238 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m²/L

Maintenance kit for the restoration of small marble, travertine and limestone surfaces. / Kit de mantenimiento para la restauración de pequeñas superficies de mármol, travertino y caliza. / Kit d'entretien pour la restauration de petites surfaces en marbre, travertin et calcaire.

HIGH-END BATHS MAINTENANCE KIT / KIT MANTENIMIENTO HIGHEND BATHS / KIT D'ENTRETIEN HIGHEND BATHS

100143706 - L179702365 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer

I. SUBSTRATE OR LAYING BASE

I. SOPORTE O FONDO DE COLOCACIÓN

I. UPPORT OU FOND DE POSE

It must be dimensionally stable and non-deformable, having undergone all the possible contractions from drying.

Debe ser dimensionalmente estable y no deformable, habiendo completado las posibles contracciones por secado.

Il doit être non déformable, avec des dimensions stables, les éventuelles contractions ayant été complétées par séchage.

It shall be perfectly free from dust, grease, or any substance that can compromise the adherence.

Estará perfectamente limpio de polvo, grasas o de cualquier sustancia que pueda comprometer la adhesión.

Il doit être exempt de poussière, de graisse ou de toute autre substance pouvant compromettre l'adhésion.

It shall not have defects in its flatness larger than 2 mm, checked using a 2 m ruler.

No debe presentar defectos de planaridad superiores a 2 mm, comprobado con una regla de 2 m.

Contrôler avec une règle de 2 m les défauts de planéité, qui ne doivent pas être supérieurs à 2 mm.

2. INSTALLING THE PIECES

2. COLOCACIÓN DE LAS PIEZAS

2. POSE DES PIÈCES

Prepare the adhesive following the manufacturer's instructions; in our case we recommend ONE-FLEX. We recommend

Butech's SUPER-ONE as adhesive for our white Marbles.

Se prepara el adhesivo siguiendo las instrucciones del fabricante, en nuestro caso recomendamos ONE-FLEX. Para nuestros Mármoles blancos recomendamos como adhesivo SUPER-ONE de Butech.

Préparer la colle en fonction des indications du fabricant. Nous recommandons l'utilisation de ONE-FLEX. Pour nos marbres blancs, nous recommandons le mortier colle SUPER-ONE de Butech.

The adhesive is applied with an adequate-sized notched trowel depending on the format of the piece to install.

Se aplica el adhesivo con una llana dentada del tamaño adecuado según el formato de la pieza a colocar.

Étaler la colle avec une taloche crantée dont les dimensions sont adaptées au format de la pièce à poser.

It is very important not to install the tiles in contact with each other. We shall leave joints of a size that is adequate and proportional to the dimension of the piece. We recommend a minimum joint of 1.5 mm indoors, and a minimum joint of 3 mm outdoors.

Es muy importante no colocar las baldosas en contacto entre sí. Debemos dejar juntas del tamaño adecuado y proporcional a la dimensión de la pieza. Para interiores se recomienda una junta mínima de 1.5 mm y para exteriores una junta mínima de 3 mm.

Lors de la pose, il est important d'éviter le contact entre les dalles. Laisser des joints dont la taille doit être adaptée et proportionnelle à celle de la pièce. Le joint minimal recommandé est de 1,5 mm pour les intérieurs et de 3 mm pour les extérieurs.

Both perimeter and expansion joints shall be 10 mm wide, and we shall not leave a surface area greater than 16 m² or 8 m without an expansion joint.

Las juntas tanto perimetrales como de dilatación serán de 10 mm y no dejar una superficie superior a 16 m² ó 8 m lineales sin junta de dilatación.

Les joints de périmètre et de dilatation doivent être de 10 mm. Ne jamais laisser une surface supérieure à 16 m² ou 8 m linéaires sans joint de dilatation.

3. SEALING INSTALLATION JOINTS

3. SELLADO DE JUNTAS DE COLOCACIÓN

3. SCELLEMENT DES JOINTS DE POSE

This process shall be carried out 24 hours after the protection of the stones (step 4).

Este proceso se efectuará después de transcurridas 24 horas tras la protección de las piedras (paso 4).

Cette opération doit être effectuée 24 heures après la protection des pierres (étape 4).

The grouting material is prepared, in our case we recommend COLORSTUK 2-12.

Se prepara el material de rejuntado, en nuestro caso recomendamos COLORSTUK 2-12.

Préparer le matériau de jointoiment. Nous recommandons l'utilisation de COLORSTUK 2-12.

The grouting material is applied with a hard rubber trowel, passing it repeatedly crosswise over the joints.

Se aplica el material de rejuntado mediante llana de goma dura, pasándola repetidamente por las juntas en sentido diagonal.

Appliquer le matériau de jointoiment avec une taloche en caoutchouc dur, en la passant plusieurs fois sur les joints dans le sens diagonal.

We shall pick up the leftovers with the same trowel.

Los sobrantes los recogeremos con la misma llana.

Récupérer les excédents avec la même taloche.

INSTALLATION / INSTALACIÓN / INSTALLATION

We shall clean the surface with a thin, hard sponge, once the mortar begins to harden.

Limpiaremos la superficie con una esponja fina y dura una vez el mortero comienza a endurecer.

Nettoyer la surface à l'aide d'une éponge fine et dure, une fois que le mortier commence à durcir.

4. PROTECTION OF NATURAL STONE

4. PROTECCION DE LA PIEDRA NATURAL

4. PROTECTION DE LA PIERRE NATURELLE

L'Antic Colonial supplies all of its natural stone products already protected, but in case it is necessary we shall proceed as follows.

L'Antic Colonial ya suministra todos sus productos de piedra natural protegidos, pero en el caso que sea necesario se procederá de la siguiente manera.

L'Antic Colonial livre la totalité de ses produits en pierre naturelle avec une protection, mais en cas de nécessité, ils doivent être protégés de la manière suivante.

Check that the stone is completely clean and dry.

Verificamos que la piedra está totalmente limpia y seca.

Vérifier que la pierre est totalement propre et sèche.

The protector is applied undiluted, using a thin foam roller, applying two crossed layers directly on the pieces. Only one application is required. Allow to dry completely.

Se aplica el protector, sin diluir, utilizando un rodillo de espuma fina, aplicado en dos capas cruzadas directamente sobre las piezas. Solo es necesaria una aplicación. Dejar secar totalmente.

Appliquer le protecteur, sans le diluer, en utilisant un rouleau en mousse fine, en l'étalant en deux couches croisées directement sur les pièces. Seule une application est nécessaire. Laisser sécher complètement.

You can find the detailed up-to-date installation guide by visiting our website www.anticcolonial.com

Puedes revisar estas instrucciones de instalación actualizadas y con mas detalle visitando nuestra pagina web www.anticcolonial.com

Les dernières mises à jour sur les conseils d'installation et des informations complémentaires sont disponibles sur notre site web www.anticcolonial.com

Floor Coverings Capuccino Grey Pulido / Wall Coverings Capuccino Grey Classico, Glaze Micro Brick Grey

INSTALLATION / INSTALACIÓN / INSTALLATION / AIRSLATE

1- Required material for installation: a series of materials and tools are required, such as a notched trowel, a rubber mallet, an agitator, a level, a rubber mallet, a circular saw, meter markers, a spatula and adhesive paste.

1- Material necesario para la instalación, se requiere una serie de materiales y herramientas, tales como una llana dentada, una llana de goma, agitador, nivel, maza de goma, radial, marcadores, metro, espátula y pasta adhesiva.

1- Matériel nécessaire à l'installation : l'installation exige une série de matériaux et d'outils, tels qu'une taloche crantée, une taloche en caoutchouc, un agitateur, un niveau, un maillet en caoutchouc, une scie radiale, des marqueurs, un mètre, une spatule et de la pâte adhésive.

2- Before installing, the floor shall be protected with cardboard or plastic to prevent staining.

2- Antes de la instalación se protegerá el suelo con cartón o plástico para evitar manchas.

2- Avant l'installation, protéger le sol avec du carton ou du plastique pour éviter les taches.

3- Next, knowing the sheet format, we shall mark the width and height measurements shall on the wall, in order to assist with its installation later.

3- A continuación, sabiendo el formato de la lámina, se marcarán las medidas tanto de anchura como de altura en la pared, para ayudar luego a su colocación.

3- En tenant compte du format de la lame, tracer ensuite sur le mur les dimensions de largeur et de hauteur pour faciliter l'installation.

4- For laying the sheet, we recommend you use masking tape, which will have to be stuck to the sheet's edge. This way we will prevent the adhesive to get in the surface when installed, and the excess of adhesive will be easily removable

from the joints between sheets once hammered. Once the sheet has been installed, use a spirit level to check it is leveled.

4- Para la colocación de la lámina, se recomienda usar cinta carroceros que se colocará por la testa de la lámina para evitar que el adhesivo se deposite en la superficie cuando se instala y se quite fácilmente el exceso de adhesivo de las juntas entre láminas una vez maceadas. Una vez colocada inicialmente la lámina, se comprobará con el nivel que haya quedado perfectamente nivelada.

4- Pour la pose de la lame, il est recommandé d'utiliser du ruban de masquage au bord des lames pour éviter que l'adhésif se dépose à la surface lors de l'installation. Après avoir utilisé le maillet, cela permet d'enlever facilement l'excès de colle au niveau des joints entre les lames. Après avoir posé initialement la lame, vérifier à l'aide du niveau qu'elle est parfaitement nivelée.

5- Installation using adhesive paste. You must use a type R2 T two-component adhesive (EPOTECH from Butech recommended) and must mix well before application. Spread an even layer of the adhesive over the whole surface with a trowel. Once the adhesive spread, install the sheet by hand and then use a rubber trowel or metallic hand roller to set it in the right position and to avoid air bubbles.

5- Colocación con pasta adhesiva. Se usará una cola bicomponente tipo R2 T (recomendando EPOTECH de Butech) homogeneizándose bien antes de aplicar. La cola se extenderá de manera uniforme por toda la superficie con la llana para la posterior colocación de la lámina. Una vez aplicada la cola, se colocará la lámina con la mano y después se usa la llana de goma o rodillo metálico para fijarla correctamente y evitar bolsas de aire.

5- Pose avec de la pâte adhésive. Utiliser une colle bi-composant de type R2 T (nous recommandons EPOTECH de Butech) et bien l'homogénéiser avec l'application. À l'aide de la taloche, étaler la colle uniformément sur toute la surface avant la pose de la lame. Après avoir appliqué la colle, positionner la lame manuellement puis utiliser la taloche en caoutchouc ou le rouleau métallique pour la fixer correctement et éviter les poches d'air.

6- Repeat the process with the rest of the sheets until they are all installed. You do not need to leave any joints, as the sheets are installed side by side. If you wish to seal the joints, we recommend to protect the sides of the edges with masking tape to avoid to stain the material with the joint sealer.

6- Repitiéndose el proceso con las demás láminas hasta su completa colocación. En su colocación no es necesario dejar juntas, se colocará a testa una lámina con otra. Si se desea sellar las juntas, recomendamos proteger los laterales de las juntas

con cinta de carroceros para evitar manchar el material con el producto con que se sella la junta.

6- Répéter ce processus avec les autres lames jusqu'à l'installation complète. Lors de la pose, il n'est pas nécessaire de laisser des joints. Poser les lames sans interruption entre l'une et l'autre. Si vous souhaitez sceller les joints, il est recommandé de les protéger sur les côtés avec du ruban de masquage, afin d'éviter de tacher le matériel avec le produit de scellement des joints.

7- Once the sheet has been installed, it is very important to take out excess of adhesive right away to avoid leaving debris in the surface. Clean thoroughly with a damp cloth or tissue and allow to dry.

7- Una vez colocada la lámina, es muy importante retirar los excesos de adhesivo de forma inmediata para evitar que pueda dejar restos en la superficie. Limpiar intensamente con un trapo o papel húmedo y dejar secar.

7- Après la pose de la lame, il est très important de retirer immédiatement les excès de colle pour éviter de laisser des traces sur la surface. Nettoyer à fond à l'aide d'un chiffon ou de papier humide, puis laisser sécher.

8- The material is supplied protected, so there is no need to apply any water repellent after installation. In case you wish to apply a new protection layer, we recommend the use of a neutral protector like FILA FOB. Once the protective fluid applied, take out the excess with a cloth or tissue so that the application is even.

8- El material se suministra protegido, con lo que no es necesario aplicar ningún hidrofugante tras la instalación del mismo. En el caso que se quiera realizar una nueva aplicación de protector, se recomienda el uso de un protector neutro tipo FILA FOB. Una vez aplicado el líquido protector, retirar el exceso con un trapo o papel para que la aplicación quede homogénea.

8- Le matériel est fourni avec une protection. Il n'est donc pas nécessaire d'appliquer un produit hydrofuge après son installation. Si vous souhaitez effectuer une nouvelle application de protecteur, il est recommandé d'utiliser un protecteur neutre tel que FILA FOB. Après avoir appliqué le liquide protecteur, enlever l'excès à l'aide d'un chiffon ou d'un papier pour que l'application soit homogène.

Les dernières mises à jour sur les conseils d'installation et des informations complémentaires sont disponibles sur notre site web www.anticcolonial.com

INSTALLATION / INSTALACIÓN / INSTALLATION / DQS

Substrates shall be completely dry (residual moisture shall not exceed 2.5%) stable, solid, resistant to compression, sufficiently leveled, and free of dust, grease, wax, paint, stripping agents, and anything else that could hinder adherence.

Los soportes deben estar totalmente secos (la humedad residual no debe ser superior al 2,5 %), estables, sólidos, resistentes a la compresión, suficientemente nivelados y libres de polvo, grasa, cera, pintura, agentes decapantes y cualquier otra cosa que pudiera entorpecer la adherencia.

Les supports doivent être complètement secs (l'humidité résiduelle ne doit pas dépasser 2,5 %), stables, solides, résistants à la compression, suffisamment nivelés et libres de poussière, de graisses, de cires, de peinture, de décapants et de tout autre élément pouvant empêcher la prise du mortier.

Room temperature shall be between 5° and 30 °C;

La temperatura ambiental debe estar entre +5° y +30° C;

La température ambiante doit être entre +5 °C et +30 °C.

We shall verify that the substrate is vertically aligned, properly leveled, and it shall not have defects in its flatness larger than 2 mm, checked using a 2 m ruler.

Verificaremos que el soporte esté adecuadamente aplomado, nivelado y no debe presentar defectos en su planimetría superiores a 2 mm, comprobados mediante una regla de 2 m.

Il faudra vérifier de même avec une règle de 2 m que le support est bien plombé, nivelé et sans des défauts de planimétrie supérieurs à 2 m.

We recommend that large tiles be installed with the help of a suction cup.

Recomendamos que las baldosas de gran tamaño se coloquen con la ayuda de una ventosa.

Pour la pose de carreaux grand format, il est recommandé d'utiliser une ventouse.

To ensure contact with the substrate, it is advisable to lightly tap the tiles with a rubber mallet, in order to avoid the formation of air bubbles and gaps.

Para asegurar el contacto con el soporte, es aconsejable golpear ligeramente las baldosas con una maza de goma, para evitar la formación de burbujas de aire y espacios vacíos.

Pour assurer un bon contact avec le support, il est recommandé de donner des petits coups sur les carreaux avec un maillet en caoutchouc pour éviter les éventuelles bulles d'air et les espaces libres.

A good tile installation and correct alignment requires using nylon spacers in order to leave open joints.

Una buena colocación y la correcta alineación de las baldosas requieren juntas abiertas mediante el uso de crucetas de nailon.

Pour le bon alignement et la pose correcte des carreaux, il faudra réaliser des joints ouverts à l'aide de croisillons en nylon.

We recommend applying the adhesive SUPER ONE+ UNILAX with a notched trowel, making sure that the amount spread over the substrate covers at least 80% of the DQS tiles.

Recomendamos que se aplique el adhesivo SUPER ONE+ UNILAX con una llana dentada, asegurándose de que la cantidad esparcida sobre el soporte cubra al menos el 80 % de las baldosas de DQS.

Il est recommandé d'appliquer le mortier SUPER ONE+ UNILAX colle à l'aide d'une taloche crantée, en s'assurant que la quantité répartie sur le support couvre au moins 80 % des carreaux de DQS.

Filling joints: the installation of tiles without joints should be avoided at all costs. The joint width depends on the tile size. (Minimum values of 3-5 mm.). L'Antic Colonial recommends COLORSTUK 0-4 + cl-Stuk from Butech.

Relleno de juntas: debe evitarse a toda costa la colocación de baldosas sin juntas. La anchura de las juntas depende del tamaño de las baldosas. (Valores mínimos de 3 a 5 mm). L'Antic Colonial recomienda el uso de COLORSTUK 0-4 + cl-Stuk de Butech

Remplissage des joints : éviter à tout prix la pose de carreaux sans joints. La largeur des joints dépend de la taille des carreaux. (Valeurs minimales entre 3 et 5 mm). L'Antic Colonial recommande COLORSTUK 0-4 + cl-Stuk de Butech.

Make sure to leave a 1 cm wide perimeter joint around walls and along floor surface edges with the tiles. 0.5 cm Wide expansion joints should be inserted every 40 m² or every 8 linear meters.

Asegúrese de dejar una junta perimetral de 1 cm de ancho alrededor de las paredes y por los bordes de superficies de suelo con baldosas. Deberían insertarse juntas de dilatación de 0,5 cm de ancho cada 40 m² o cada 8 metros lineales.

Prévoir un joint périmétral de 1 cm de largeur le long des murs et sur les unions des carreaux avec d'autres types de surfaces. Prévoir aussi des joints de dilatation de 0,5 cm de largeur tous les 40 m² ou tous les 8 mètres linéaires.

DESCRIPTION OF ICONS / DESCRIPCIÓN DE ICONOS / DESCRIPTION DES ICONES

Special sizes can be made to meet specific customer requirements.

Se pueden elaborar formatos especiales adaptados a las necesidades de cada cliente.

Possibilité de fabriquer des formats spéciaux adaptés aux besoins de chaque client.

L'Antic Colonial recommends the use of taps with an aerator in all its washbasins to reduce splashing.

L'Antic Colonial recomienda el uso de grifos con aireador en todos sus lavabos para reducir las salpicaduras de agua.

De manière à réduire les éclaboussures d'eau, L'Antic Colonial recommande l'installation de robinets équipés d'un aérateur sur tous ses lavabos.

BIOPROT

Protection that reduces drastically the emergence of most common household bacteria.

BIOPROT

Protección que reduce radicalmente la aparición de las bacterias domesticas mas comunes.

BIOPROT

Protection qui réduit de façon radicale l'apparition des bactéries domestiques les plus communes.

WASHBASIN ON SUPPORT

Washbasin installed on a countertop or cabinet.

LAVABO DE APOYO

Lavabo colocado sobre una encimera o mueble.

VASQUE À POSER

Lavabo placé sur un plan de toilette ou un meuble.

WALL-MOUNTED WASHBASIN

Washbasin that is affixed to the wall.

LAVABO SUSPENDIDO

Lavabo anclado a la pared.

LAVABO SUSPENDU

Lavabo fixé au mur.

FREE-STANDING WASHBASIN

Washbasin with a base that reaches the floor of the room.

LAVABO DE PIE

Lavabo con base que llega hasta el pavimento de la estancia.

LAVABO SUR PIED

Lavabo dont la base arrive jusqu'au sol de la pièce.

SEMI-RECESSED WASHBASIN

Embedded washbasin that cuts through the countertop partially.

LAVABO DE SEMI-ENCASTRE

Lavabo encajado que atraviesa la encimera parcialmente.

LAVABO SEMI-ENCASTRÉ

Lavabo encastré qui traverse partiellement le plan de toilette.

RECESSED WASHBASIN

Washbasin installed under the countertop.

LAVABO DE ENCASTRE

Lavabo colocado por la parte inferior de una encimera.

LAVABO ENCASTRÉ

Lavabo encastré par la partie inférieure du plan de toilette.

IRREGULAR TEXTURE

Material that stands out for having an asymmetrical surface.

TEXTURA IRREGULAR

Material que destaca por tener una superficie asimétrica.

TEXTURE IRRÉGULIÈRE

Matériau qui se distingue par sa surface asymétrique.

GLOSS

Material with surface with the ability to produce reflections.

BRILLO

Material cuya superficie tiene la capacidad de producir reflejos.

ÉCLAT

Matériau dont la surface est en mesure de produire des reflets.

MATT

Material with a gloss-free surface.

MATE

Material cuya superficie carece de brillo.

MAT

Matériau dont la surface n'est pas brillante.

SPECIFICATIONS FOR TAPS
ESPECIFICACIONES PARA LA GRIFERIA
SPECIFICATIONS POUR LA
ROBINETTERIE

Higher flows could lead to the overflow of the basin. We recommend using aerator 100072948 - N299999734 STANDARD AERATOR, which reduces flow to 3.5 liters/min and consequently water use. For basins with a hidden waste we recommend that the water from the tap falls between 6 and 12cm from the waste to help the water to drain correctly and avoid the basin from filling up with water.

Se recomienda el uso del aireador 100072948 - N299999734 AIREADOR ESTANDAR que reduce el caudal a 3.5 litros/min y consecuentemente el consumo de agua. En los lavabos con desagüe oculto se recomienda que la caída del agua del grifo esté entre 6 y 12 centímetros del desagüe para evitar que el agua se estanque y pueda evacuar correctamente.

Il est recommandé d'utiliser l'aérateur 100072948 - N299999734 AIREADOR ESTANDAR qui réduit le débit à 3,5 litres/min et, par conséquent, la consommation d'eau. Sur les lavabos dont la bonde est invisible, il est recommandé que la chute d'eau depuis le robinet tombe entre 6 et 12 cm du percement d'évacuation afin que l'eau puisse s'évacuer correctement.

WARRANTY

All our products are top quality and hold the guarantee obtained with the ISO 9001 certification and CE Marking, Declaration of Conformity. In addition, the department of quality at L'Antic Colonial, S.A conducts permanent quality controls of its products. All products are guaranteed against any production defects, in normal conditions of use and with correct assembly and installation for a period of TWO YEARS, from the delivery date to the first user. The goods should be carefully inspected on delivery. Any fault, defect or breakage observed, caused during transportation, should be recorded on the transport agency delivery note. In the case of units supplied in promotional offers, projects, etc., the guarantee period will start on the product supply date. This guarantee does not apply to those products which have been stored, fitted or installed incorrectly, misused, or cleaned using unsuitable cleaning products or methods. This guarantee does not apply to those products that have been used for public use, outside or in corrosive environments.

The normal evolution and characteristics of the natural product are excluded. There may be slight differences of colour between the different elements and differences in tone or grain. In addition, if the products are compared at different moments, the time elapsed and the weather conditions may cause variations in colour and/or tone.

While this guarantee remains valid, L'Antic Colonial reserves the right, without prior notification, to modify the technical and design specifications of its products.

Conditions of guarantee:

- That the product was purchased from an Official Distributor.
- That it has not been altered since it left the factory.
- That the recommendations for use and maintenance have been observed.
- That the products have not been used, or exhibited for an indefinite period in any showroom. The guarantee period for these articles is 30 days.

NOTE: The guarantee document is applicable without prejudice to the rights of the consumers established under the applicable Law in each country, and with that established under European Community legislation.

MAINTENANCE

Maintenance is essential for removing dirt or stains that may have built up, acid attacks, renewing the product shine, etc. Correct maintenance guarantees a longer life for the product.

NATURAL STONE

Ordinary cleaning: A neutral pH high-powered cleaner such as Fila Cleaner is recommended, to ensure fast and efficient cleaning, without damaging the product treatment. Dilute a capful of Fila Cleaner in a bucket of warm water and mop the product. Rinsing is not necessary. To remove stains or acid attacks: In the event of stains or attacks by acid substances (lemon, coke, tomato juice, lime scale removers, wine, vinegar, etc.) that react with the natural stone, these can be removed using a suitable restoration kit available from L'Antic Colonial points of sale. To remove organic stains, dyes and felt-tip pen, use the Fila Sr/95 colour stain remover.

Renewing or increasing the degree of shine: To renew or increase the degree of shine, use the specific natural wax, FilaClassic. To apply correctly, first dilute the product, apply to the surface and after a few hours, gently wipe with a soft cloth to obtain the required shine.

WOOD USED IN THE UNITS

Dust with a soft cloth at least twice a week. Units must never be exposed to prolonged contact with water or extremely high conditions of humidity. Check that the bathroom is correctly ventilated. Wipe away any water spilt onto the surface, with a clean dry cloth as fast as possible to prevent moisture from penetrating into the product. Grease and oil stains can be easily removed with acetone.

Remember that to remove ordinary domestic dirt, abrasive soaps, steel wool, wax or polishers should not be used in the care and conservation of the product. A biodegradable cleaner that does not leave residue and does not require rinsing after application is ideal.

Avoid exposure to direct sunlight for prolonged periods of time. During the hours of maximum sunlight, use curtains or blinds to minimise the direct sunlight.

GLASS AND MIRRORS

Use a soft cloth moistened with alcohol. Avoid the use of abrasive materials that may harm or scratch the surface.

STAINLESS STEEL

Stainless steel is special steel known for its high resistance to knocks, scratches, light and corrosion. No special care is necessary but it is important not to use abrasive materials. Surfaces should be cleaned with a soft cloth and alcohol.

GARANTÍA

Todos nuestros productos son de primera calidad y cuentan con la garantía otorgada por la certificación ISO 9001 y la Declaración de conformidad relacionada con el Mercado CE. Así mismo, el departamento de calidad de L'Antic Colonial, S.A realiza un control permanentemente de la calidad de sus productos. Todos los productos están en garantía contra todo defecto de fabricación, en las condiciones normales de utilización y con un montaje e instalación correcto durante un periodo de DOS AÑOS, contando a partir de la fecha de entrega al primer usuario. Deberá ser revisada cuidadosamente la mercancía en el momento de la entrega. Toda anomalía, desperfecto o rotura detectada ocasionada en el transporte deberá ser anotada en el albarán de la agencia de transporte. En el caso de muebles suministrados en promociones, obras, etc..., el periodo de garantía contará a partir de la fecha de suministro de los mismos.

Esta garantía no se aplicará a aquellos productos que hayan sido almacenados, montados o instalados de forma incorrecta, o que se hayan utilizado de forma inapropiada, o que se hayan limpiado con métodos o productos de limpieza inadecuados. Esta garantía no se aplicará a aquellos productos que se hayan utilizado para uso público, en el exterior o en ambientes corrosivos.

Se excluyen de la garantía las características y evoluciones normales del producto natural, puede haber ligeras diferencias de tono entre los distintos elementos que lo componen y diferencias de matiz o veta. Además, si los productos se comparan en distintos momentos, el tiempo transcurrido y las condiciones climáticas pueden causar variaciones en color y/o tonalidad. Durante la vigencia de la presente garantía, L'Antic Colonial se reserva, sin previo aviso, la posibilidad de modificar las especificaciones técnicas y de diseño de sus productos.

Condiciones de garantía:

- Que el producto haya sido adquirido en un Distribuidor Oficial.
- Que no haya sido alterado desde su salida de fábrica.
- Que se hayan respetado todas las recomendaciones de uso y mantenimiento.
- Que los productos no hayan sido utilizados, ni hayan estado expuestos por tiempo indefinido en cualquier exposición, siendo el periodo de garantía de estos artículos de 30 días.

NOTA: El documento de garantía, será de aplicabilidad, sin perjuicio de los derechos de los consumidores establecidos por la Ley vigente en cada país, así como lo dispuesto en la normativa comunitaria europea.

MANTENIMIENTO

El mantenimiento tiene la importante finalidad de eliminar la suciedad, manchas que hayan podido penetrar ligeramente, ataques ácidos, renovar el brillo del material, etc. Un correcto mantenimiento garantiza una vida más larga al material.

PIEDRA NATURAL

Limpieza ordinaria: Se recomienda un limpiador con pH neutro y alto poder de limpieza como Fila Cleaner, así se garantiza una limpieza rápida y eficaz, respetando al mismo tiempo el tratamiento. Para ello se diluye un taponcito de Fila Cleaner en un cubo de agua tibia y luego se friega sin necesidad de aclarar. Para eliminar manchas o ataques ácidos: En caso de que se formen manchas por ataques de sustancias ácidas (limón, cola, zumo de tomate, anticales, vino, vinagre, etc.) que reaccionan con la piedra natural, se pueden eliminar utilizando un kit de restauración adecuado disponibles en los puntos de venta de L'Antic Colonial. Para eliminar manchas orgánicas, tintes y rotuladores se recomienda utilizar el quitamanchas de color Fila Sr/95.

Renovar o aumentar el grado de brillo: Para renovar o aumentar el grado de brillo existente, se recomienda utilizar la cera natural específica FilaClassic. Para una correcta aplicación se diluye previamente el producto, se aplica sobre la superficie y al cabo de unas horas se emplea con suavidad un paño para conseguir el brillo deseado.

MADERA DE LOS MUEBLES

Limpie el polvo con un paño suave por lo menos dos veces por semana. Los muebles no deben exponerse nunca a un contacto excesivo con agua o con una humedad extremadamente alta, por esta razón hay que asegurarse de que el baño cuenta con la ventilación adecuada. Si se derrama agua sobre la superficie, simplemente utilice un paño limpio y seco tan rápido como sea posible para evitar la penetración de la humedad. En cuanto a las manchas de grasa, estas se pueden eliminar fácilmente con acetona.

Debe tener en cuenta que la suciedad doméstica normal no deben utilizarse jabones abrasivos, estropajo de acero, cera o pulimentadora para su limpieza y conservación. Lo ideal es utilizar un limpiador biodegradable que no deje residuos y que no requiera enjuague después de la aplicación.

Evite la exposición directa de luz solar durante periodos de tiempo prolongados. Durante las horas de máxima luz solar, utilice cortinas o persianas para minimizar la luz solar directa.

CRISTAL Y ESPEJOS

Utilizar un paño suave humedecido con alcohol. Evitar la utilización de materiales abrasivos que pueden incidir o rayar la superficie.

ACERO INOXIDABLE

El acero inoxidable es un acero especial que se distingue por su elevada resistencia a los golpes, a las rayaduras, a la luz y a la corrosión. No se requieren cuidados particulares pero es importante no utilizar materiales abrasivos. Se recomienda limpiar las superficies con un paño suave y alcohol.

GARANTIE

Tous nos produits sont de première qualité et disposent de la garantie fournie par la certification ISO 9001 et la déclaration de conformité relative au marquage CE. De même, le département qualité de L'Antic Colonial, S.A réalise un contrôle permanent de la qualité de ses produits. Tous les produits sont garantis contre tout défaut de fabrication, dans les conditions normales d'utilisation et avec un montage et une installation correcte, pendant une période de DEUX ANS à partir de la date de livraison au premier utilisateur. La marchandise devra être vérifiée soigneusement au moment de la livraison. Toute anomalie, imperfection ou casse détectée et survenue pendant le transport devra apparaître sur le bon de livraison de l'agence de transport. Dans le cas de meubles fournis lors de promotions, sur chantier, etc., la période de garantie sera effective à partir de leur date de mise à disposition.

Cette garantie ne s'appliquera pas aux produits stockés, montés ou installés de manière incorrecte, ou utilisés de manière inappropriée, ou nettoyés avec des méthodes ou des produits de nettoyage inadaptés.

Cette garantie ne s'appliquera pas aux produits utilisés pour une utilisation publique, en extérieur ou dans des environnements corrosifs.

Sont exclues de la garantie les caractéristiques et évolutions normales du produit naturel ; les différents éléments le composant peuvent présenter de légères différences de ton, de nuance ou de veines. En outre, si les produits sont comparés à différents moments, le temps écoulé et les conditions climatiques peuvent provoquer des variations de couleur et/ou de tonalité.

Pendant toute la période de validité de la présente garantie, L'Antic Colonial se réserve la possibilité, sans avertissement préalable, de modifier les spécifications techniques et de conception de ses produits.

Conditions de garantie:

- Le produit doit avoir été acheté auprès d'un distributeur officiel.
- Il ne doit pas avoir été modifié depuis sa sortie d'usine.
- Toutes les recommandations d'utilisation et d'entretien doivent avoir été respectées.
- Les produits ne doivent pas avoir été utilisés ou exposés pour une durée indéfinie à une quelconque exposition, la période de garantie de ces articles étant de 30 jours.

REMARQUE: Le document de garantie sera applicable, sans préjudice des droits aux consommateurs définis par la loi en vigueur dans chaque pays, comme le veut la réglementation communautaire européenne.

ENTRETIEN

L'entretien a pour finalité indispensable d'éliminer la saleté, les taches qui auraient pu pénétrer légèrement, les attaques acides, de renouveler la brillance du matériau, etc. Un entretien correct garantit une durée de vie accrue du matériau.

PIERRE NATURELLE

Nettoyage ordinaire: Un nettoyant au pH neutre et à haut pouvoir nettoyant, comme le Fila Cleaner, est recommandé afin de garantir un nettoyage rapide et efficace, tout en respectant le traitement. Diluer pour cela un bouchon de Fila Cleaner dans un seau d'eau tiède, puis laver sans rincer. Pour éliminer des taches ou attaques acides: Si des taches se forment sous l'effet de l'attaque de substances acides (citron, coca cola, jus de tomate, anticalcaire, vin, vinaigre, etc.) qui réagissent avec la pierre naturelle, il est possible de les éliminer en utilisant un kit de restauration adéquat, disponible dans les points de vente de L'Antic Colonial. Pour éliminer des taches organiques, de teinture et de feutres, il est recommandé d'utiliser l'anti-taches de couleur Fila Sr/95.

Renouveler ou accroître le niveau de brillance: Pour renouveler ou accroître le niveau de brillance existant, il est recommandé d'utiliser la cire naturelle spécifique FilaClassis. Pour une application correcte, diluer d'abord le produit, puis l'appliquer sur la surface et, après quelques heures, utiliser avec soin un chiffon pour obtenir la brillance souhaitée.

BOIS DES MEUBLES

L'Nettoyer la poussière avec un chiffon doux au moins deux fois par semaine. Les meubles ne doivent jamais être exposés à un contact excessif avec l'eau ou une humidité extrême ; c'est pourquoi il faut s'assurer que la salle de bain dispose d'une ventilation adéquate. Si de l'eau est renversée sur la surface, il suffit d'utiliser un chiffon propre et sec le plus rapidement possible pour éviter la pénétration de l'humidité. En ce qui concerne les taches de graisse, il est facile de les éliminer avec de l'acétone.

Il faut prendre en compte que dans le cas de la saleté domestique normale il n'est pas nécessaire d'utiliser des savons abrasifs, de la laine d'acier, de la cire ou une polisseuse pour leur nettoyage et conservation. L'idéal est d'utiliser un nettoyant biodégradable ne laissant aucun résidu et ne nécessitant aucun rinçage après application. Éviter l'exposition directe au soleil pendant des périodes prolongées. Pendant les heures d'ensoleillement maximal, utiliser des volets ou des rideaux pour réduire l'éclairage direct.

VERRE ET MIROIRS

Utiliser un chiffon doux humidifié avec de l'alcool. Éviter d'utiliser des matériaux abrasifs pouvant altérer ou rayer la surface.

ACIER INOXYDABLE

L'acier inoxydable est un acier spécial qui se distingue par sa résistance élevée aux chocs, aux rayures, à la lumière et à la corrosion.

Aucun soin particulier n'est recommandé mais il est important de ne pas utiliser de matériaux abrasifs. Il est recommandé de nettoyer les surfaces avec un chiffon doux et de l'alcool.

MOSAICS

All L'Antic Colonial mosaics may be subject to shade variations. The colour of the material supplied may differ slightly from that shown. Our website (<http://anticcolonial.com/en/mosaics/>) contains further information in respect of our mosaics, such as installation guides and videos, technical specifications, details on textures or recommendations for use.

Todos los mosaicos de L'Antic Colonial pueden sufrir variaciones de tono. El color del material servido puede no ser exactamente igual al de la muestra. En nuestra página web (<http://anticcolonial.com/mosaicos/>) encontrará información adicional de nuestros mosaicos como guías y vídeos de instalación, fichas técnicas, texturas o recomendaciones de uso.

Toutes les mosaïques de L'Antic Colonial peuvent subir des variations de tonalité. La couleur du matériau fourni peut être légèrement différente de celle de l'échantillon. Sur notre site Internet (<http://anticcolonial.com/fr/mosaïques/>), vous trouverez des informations supplémentaires sur nos mosaïques : manuels et vidéos d'installations, fiches techniques, textures ou recommandations d'utilisation.

INSTALLATION / INSTALACIÓN / INSTALLATION

INSTALLATION INSTALACIÓN INSTALLATION

The surface on which the material is going to be installed shall be smooth and consistent. In addition, it shall be dry and clean.

La superficie sobre la que se va a colocar el material debe ser lisa y consistente. además de estar seca y limpia.

La surface où va être posé le matériau doit être lisse, ferme, sèche et propre.

We recommend leveling the surface in order to create a white background.

Se aconseja nivelar la superficie para crear un fondo blanco.

Il est conseillé de mettre à niveau la surface pour créer un fond blanc.

In the case of levels greater than 2 mm, the use of specific products is recommended.

En el caso de nivelados superiores a 2 mm se recomienda el uso de productos específicos.

Si la mise à niveau est supérieure à 2 mm, il est recommandé d'utiliser des produits spécifiques.

In order to maintain the good condition of the leveling product, the room temperature must be between 30 °C and 5 °C.

Para mantener el buen estado del producto de nivelación, la temperatura ambiente debe estar comprendida entre 30° C y 5° C.

Afin de maintenir le produit de nivellement en bon état, la température ambiante doit être entre 30 °C et 5 °C.

Prepare the adhesive following the manufacturer's instructions; in our case we recommend ONE-FLEX.

Se prepara el adhesivo siguiendo las instrucciones del fabricante, en nuestro caso recomendamos ONE-FLEX.

Préparer la colle en fonction des indications du fabricant. Nous recommandons l'utilisation de ONE-FLEX.

Next, we shall "comb" the adhesive with the notched side (minimum notch 3 mm.) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

A continuación "peinamos" el adhesivo con el lado dentado (dentadura mínima de 3 mm). no se debe extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

Puis, "peigner" le mortier colle avec le côté cranté (denture minimale 3 mm). Ne pas étendre le mortier colle sur de trop grandes surfaces pour éviter qu'il ne sèche trop avant de poser le matériau.

We install the sheet and press it evenly with a rubber trowel.

Colocamos la hoja y presionamos uniformemente la misma con una llana de goma.

Mettre en place la feuille puis exercer une légère pression uniforme à l'aide d'une taloche en caoutchouc.

We shall ensure that the distance between the sheets is the same between pieces, resulting in a uniform installation, and that all joints have the same distance to each other.

Nos aseguramos que la distancia entre hojas sea

la misma que hay entre las piezas, resultando la colocación homogénea y que todas las juntas tengan la misma separación entre sí.

S'assurer que la distance entre les feuilles soit égale à celle existante entre les pièces, afin que la pose soit uniforme et tous les joints soient égaux.

We shall let the adhesive dry for at least 24-48 hours. Before the adhesive sets, debris must be wiped off with a sponge or cloth.

Hay que dejar secar el adhesivo durante al menos 24-48 horas. Antes de que fragüe el adhesivo se deben retirar los restos del mismo con una esponja o un trapo.

Laisser prendre le mortier colle pendant 24-48 heures. Avant le durcissement du mortier-colle, enlever les restes à l'aide d'une éponge ou d'un chiffon.

GROUTING (Applicable only for mosaics with joint).

REJUNTADO (aplicable sólo para mosaicos con junta).

REJOINTOIEMENT (Applicable uniquement pour les mosaïques posées avec joint).

All pieces shall be perfectly clean and free of dust before grouting.

Todas las piezas deben estar perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

Toutes les pièces devront être propres et libres de poussière avant de rejointer.

We recommend the use of Colorstuk rapid.

Se recomienda el uso de Colorstuk rapid.

Il est recommandé d'utiliser Colorstuk rapid.

The grouting material is spread with a rubber trowel, filling joints well in all their depth.

Se extiende el material de rejunte con una llana de goma relleno bien las juntas en toda su profundidad.

Étendre le matériau de rejointoiement à l'aide d'une taloche en caoutchouc en remplissant bien les joints dans toute sa profondeur.

INSTALLATION / INSTALACIÓN / INSTALLATION

The same trowel shall be used to remove excess grout.

Se utilizará la misma llana para eliminar el exceso.

La même taloche sera utilisée pour enlever l'excès de matériau.

Before the grouting material dries, its remains shall be removed with a sponge or cloth.

Antes de que fragüe el material de rejunte se deben retirar los restos del mismo con una esponja o trapo.

Les restes de matériau utilisé pour le rejointoiement doivent être retirés à l'aide d'une éponge ou d'un chiffon avant qu'il ne prenne.

For applications exposed, directly or indirectly, to water, we recommend sealing the grout with a neutral product such as FILAFOB. It's also recommended Butech's Epotech as a grout. (see technical characteristics sheet)

Específicamente para instalaciones en las que el material vaya a estar en contacto con agua (directa o indirectamente) se recomienda sellar el adhesivo de rejunte aplicando un protector neutro tipo FILAFOB. También está recomendado el uso de Epotech de Butech como material de rejunte (Leer características técnicas del producto).

Pour les installations spécifiques où il est prévu que le matériau soit en contact avec l'eau (directement ou indirectement), il est recommandé de sceller le matériau de jointoiement en appliquant un protecteur neutre type FILAFOB. Il est également recommandé d'utiliser Epotech de Butech comme matériau de jointoiement (lire les caractéristiques techniques du produit).

INSTALLATION / INSTALACIÓN / INSTALLATION

GLASS MOSAICS

INSTALLATION

INSTALACIÓN

INSTALLATION

The surface on which the material is going to be installed shall be smooth and consistent. In addition, it shall be dry and clean.

La superficie sobre la que se va a colocar el material debe ser lisa y consistente. además de estar seca y limpia.

La surface où va être posé le matériau doit être lisse, ferme, sèche et propre.

We recommend leveling the surface in order to create a white background.

Se aconseja nivelar la superficie para crear un fondo blanco.

Il est conseillé de mettre à niveau la surface pour créer un fond blanc.

In the case of levels greater than 2 mm, the use of specific products is recommended.

En el caso de nivelados superiores a 2 mm se recomienda el uso de productos específicos.

Si la mise à niveau est supérieure à 2 mm, il est recommandé d'utiliser des produits spécifiques.

In order to maintain the good condition of the leveling product, the room temperature must be between 30 °C and 5 °C.

Para mantener el buen estado del producto de nivelación, la temperatura ambiente debe estar comprendida entre 30° C y 5°C.

Afin de maintenir le produit de nivellement en bon état, la température ambiante doit être entre 30 °C et 5 °C.

We shall extend the cement-based adhesive with the flat side of a notched trowel evenly on the wall. In our case we recommend Butech's One-flex.

Extendemos el adhesivo cementoso mediante el lado liso de una llana dentada uniformemente sobre el muro. En nuestro caso recomendamos One-flex de Butech

Utiliser le côté lisse d'une taloche crantée pour étendre le mortier colle uniformément sur le mur. Dans notre cas, nous recommandons One-flex de Butech.

Next, we shall "comb" the adhesive with the notched side (minimum notch 3 mm.) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

A continuación "peinamos" el adhesivo con el lado dentado (dentadura mínima de 3 mm). no se debe extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

Puis, "peigner" le mortier colle avec le côté cranté (denture minimale 3 mm). Ne pas étendre le mortier colle sur de trop grandes surfaces pour éviter qu'il ne sèche trop avant de poser le matériau.

We install sheet and press it evenly with a rubber trowel.

Colocamos la hoja y presionamos uniformemente la misma con una llana de goma.

Mettre en place la feuille puis exercer une légère pression uniforme à l'aide d'une taloche en caoutchouc.

We shall ensure that the distance between the sheets is the same between pieces, resulting in a uniform installation, and that all joints have the same distance to each

other.

Nos aseguramos que la distancia entre hojas sea la misma que hay entre las piezas, resultando a la colocación homogénea y que todas las juntas tengan la misma separación entre sí.

S'assurer que la distance entre les feuilles soit égale à celle existante entre les pièces, afin que la pose soit uniforme et tous les joints soient égaux.

We shall let the adhesive dry for at least 24-48 hours. Before the adhesive sets, debris must be wiped off with a sponge or cloth.

Hay que dejar secar el adhesivo durante al menos 24-48 horas. Antes de que fragüe el adhesivo se deben retirar los restos del mismo con una esponja o un trapo.

Laisser prendre le mortier colle pendant 24-48 heures. Avant le durcissement du mortier-colle, enlever les restes à l'aide d'une éponge ou d'un chiffon.

We are ready for grouting.

Ya estamos preparados para el rejuntado.

L'opération suivante est le rejointoiement.

GROUTING (Applicable only for mosaics with joint).

REJUNTADO (aplicable sólo para mosaicos con junta).

REJOINTOIEMENT (Applicable uniquement pour les mosaïques posées avec joint).

All pieces shall be perfectly clean and free of dust before grouting.

Todas las piezas deben estar perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

Toutes les pièces devront être propres et libres de poussière avant de rejoiner.

We recommend Butech's colorstuk rapid.

Se recomienda el uso de colorstuk rapid de Butech.

Il est recommandé d'utiliser Colorstuk rapid de Butech.

INSTALLATION / INSTALACIÓN / INSTALLATION

The grouting material is spread with a rubber trowel, filling joints well in all their depth.

Se extiende el material de rejunte con una llana de goma rellenando bien las juntas en toda su profundidad.

Étendre le matériau de rejointoiement à l'aide d'une taloche en caoutchouc en remplissant bien les joints dans toute sa profondeur.

The same trowel shall be used to remove excess grout.

Se utilizará la misma llana para eliminar el exceso.

La même taloche sera utilisée pour enlever l'excès de matériau.

Before the grouting material dries, its remains shall be removed with a sponge or cloth.

Antes de que fragüe el material de rejunte se deben retirar los restos del mismo con una esponja o trapo.

Les restes de matériau utilisé pour le rejointoiement doivent être retirés à l'aide d'une éponge ou d'un chiffon avant qu'il ne prenne.

Specifically for areas where the material will be in contact with water (directly or indirectly) the use of Butech's epotech as grout material is recommended.

Específicamente para instalaciones en las que el material vaya a estar en contacto con agua (directa o indirectamente) se recomienda el

uso como material de rejunte de Epotech de Butech.

Pour les installations spécifiques où il est prévu que le matériau soit en contact avec l'eau (directement ou indirectement), il est recommandé d'utiliser le mortier-colle Politech de Butech et le matériau de rejointoiement Epotech de Butech.

INSTALLATION

INSTALACIÓN

INSTALLATION

The surface on which the material is going to be installed shall be smooth and consistent. In addition, it shall be dry and clean.

La superficie sobre la que se va a colocar el material debe ser lisa y consistente. además de estar seca y limpia.

La surface où va être posé le matériau doit être lisse, ferme, sèche et propre.

Room temperature must be between 5 °C and 30 °C.

La temperatura ambiente debe estar comprendida entre 5 y 30°C.

La température ambiante doit être entre +5 °C et +30 °C.

The bonding grip material is prepared following the manufacturer's instructions, and the adhesive shall be applied throughout the installation surface. In our case we recommend Butech's Fr-one.

Se prepara el material de agarre, siguiendo las instrucciones del fabricante, se aplicará el adhesivo por toda la superficie de colocación. En nuestro caso recomendamos Fr-one de Butech.

Préparer ensuite le matériau de fixation en suivant les instructions du fabricant, puis l'appliquer sur la totalité de la surface de pose. Dans notre cas, nous recommandons Fr-one de Butech.

We recommend working in reduced areas in order to prevent it from drying out before installing the material.

Se recomienda trabajar en zonas de extensión reducida para evitar que se reseque antes de colocar el material.

Il est recommandé de travailler par petites zones pour éviter qu'il ne sèche avant de poser le matériau.

The pieces shall not be wet before installing.

No se deben mojar las piezas antes de colocarlas.

Ne pas mouiller les pièces avant de les poser.

We shall extend the cement-based adhesive with the flat side of a notched trowel evenly on the wall.

Extendemos el adhesivo cementoso mediante el lado liso de una llana dentada uniformemente sobre el muro.

Utiliser le côté lisse d'une taloche crantée pour étendre le mortier colle uniformément sur le mur.

Laisser prendre le mortier colle pendant 24-48 heures. Avant le durcissement du mortier-colle, enlever les restes à l'aide d'une éponge ou d'un chiffon.

IMPORTANT CONSIDERATIONS TO BEAR IN MIND

CONSIDERACIONES IMPORTANTES A TENER EN CUENTA

CONSIDÉRATIONS IMPORTANTES À PRENDRE EN COMPTE

Install the meshes from the bottom up, paying attention to the installation direction of each mesh.

Instalar las mallas de abajo hacia arriba, tomando nota de la dirección de instalación de cada malla.

Disposer les mailles du bas vers le haut, en bien notant dans quelle direction sont installées les mailles.

Continue until the entire surface is covered, leaving the corners and the internal angles.

Continuar hasta cubrir toda la superficie dejando las esquinas y los ángulos internos.

Continuer de la même façon jusqu'à couvrir toute la surface, exception faite des coins et des angles internes.

INSTALLATION / INSTALACIÓN / INSTALLATION

In order to achieve the necessary straight cut for finishing internal angles and corners, mark the straight line on the mesh surface.

Para conseguir el corte recto necesario para acabar los ángulos internos y las esquinas marcar la línea recta en la superficie de la malla.

Pour réaliser la découpe droite requise pour la finition des angles internes et des coins, marquer la ligne droite sur la surface de la maille.

Remove each piece that needs to be cut.

Quitar cada pieza que se tiene que cortar.

Retirer les pièces à couper.

Cut each piece using a diamond water jet cutting saw (do not cut more than two meshes at the same time.)

Cortar cada pieza usando una sierra de diamante al corte de agua (no cortar más de dos mallas a la vez).

Couper chaque pièce à l'aide d'une scie diamant à eau (ne pas couper deux mailles en même temps).

Re-glue the cut pieces to the mesh.

Volver a pegar las piezas cortadas a la malla.

Coller à nouveau les pièces coupées sur la maille.

GROUTING

REJUNTADO

REJOINTOEMENT

All pieces shall be perfectly clean and free of dust before grouting.

Todas las piezas deben estar perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

Toutes les pièces devront être propres et libres de poussière avant de rejointer.

We recommend the use of Epotech aqua.

Se recomienda el uso de Epotech aqua.

Il est recommandé d'utiliser Epotech aqua.

The grouting material is spread with a rubber trowel, filling joints well in all their depth.

Se extiende el material de rejunte con una llana de goma rellenando bien las juntas en toda su profundidad.

Étendre le matériau de rejointoement à l'aide d'une taloche en caoutchouc en remplissant bien les joints dans toute sa profondeur.

The same trowel shall be used to remove excess grout.

Se utilizará la misma llana para eliminar el exceso.

La même taloche sera utilisée pour enlever l'excès de matériau.

Before the grouting material dries, its remains shall be removed with a sponge or cloth.

Antes de que fragüe el material de rejunte se deben retirar los restos del mismo con una esponja o trapo.

Les restes de matériau utilisé pour le rejointoement doivent être retirés à l'aide d'une éponge ou d'un chiffon avant qu'il ne prenne.

INSTALLATION / INSTALACIÓN / INSTALLATION

GLASS TILES

RECEPTION OF MATERIAL

RECEPCIÓN DEL MATERIAL

RÉCEPTION DU MATÉRIAU

In order to achieve a uniform look, it is very important to mix pieces from different boxes.

Para conseguir un efecto estético homogéneo, es muy importante mezclar piezas de varias cajas diferentes.

Pour un effet esthétique plus homogène, il est important de mélanger des pièces de différents emballages.

INSTALLATION

INSTALACIÓN

INSTALLATION

The surface on which the material is going to be installed shall be smooth and consistent. In addition, it shall be dry and clean.

La superficie sobre la que se va a colocar el material debe ser lisa y consistente. Además de estar seca y limpia.

La surface où va être posé le matériau doit être lisse, ferme, sèche et propre.

Room temperature must be between 5 °C and 30 °C.

La temperatura ambiente debe estar comprendida entre 5 y 30 °C.

La température ambiante doit être entre +5 °C et +30 °C.

The bonding grip material is prepared following the manufacturer's instructions, and the adhesive shall be applied throughout the installation surface. In our case we recommend Butech's One Flex.

Se prepara el material de agarre, siguiendo las instrucciones del fabricante, se aplicará el adhesivo por toda la superficie de colocación. En nuestro caso recomendamos One Flex de Butech.

Préparer ensuite le matériau de fixation en suivant les instructions du fabricant, puis l'appliquer sur la totalité de la surface de pose. Dans notre cas, nous recommandons One Flex de Butech.

We recommend working in reduced areas in order to prevent it from drying out before installing the material.

Se recomienda trabajar en zonas de extensión reducida para evitar que se reseque antes de colocar el material.

Il est recommandé de travailler par petites zones pour éviter qu'il ne sèche avant de poser le matériau.

The pieces shall not be wet before installing.

No se deben mojar las piezas antes de colocarlas.

Ne pas mouiller les pièces avant de les poser.

We shall extend the cement-based adhesive with the flat side of a notched trowel evenly on the wall.

Extendemos el adhesivo cementoso mediante el lado liso de una llana dentada uniformemente sobre el muro.

Utiliser le côté lisse d'une taloche crantée pour étendre le mortier colle uniformément sur le mur.

Next, we shall "comb" the adhesive with the notched side (minimum notch 3 mm.)

A continuación "peinamos" el adhesivo con el lado dentado (dentadura mínima de 3 mm).

Puis, "peigner" le mortier colle avec le côté cranté (denture minimale 3 mm).

Movement joints shall be marked.

Se deben señalar las juntas de movimiento.

Marquer les joints de mouvement.

The pieces shall be installed leaving the necessary joint between them, with the assistance of spacers, pressing them and making a small back and forth motion to get the most coverage on their back.

Se colocarán las piezas dejando entre ellas la junta necesaria, con la ayuda de distanciadores, presionándolas y ejerciendo un pequeño movimiento de vaivén para conseguir la mayor cobertura del dorso de las mismas.

Poser les pièces en laissant un espace pour le joint à l'aide d'une cale de distance et en exerçant une légère pression avec un mouvement basculant pour favoriser la bonne distribution du produit au dos de la pièce.

We shall carry out the definitive settling of the pieces using a rigid and clean rubber plate, and beating on it with a rubber mallet.

Se realizará el asentamiento definitivo de las piezas empleando una plancha de goma y limpia, batiendo sobre la misma con un martillo de goma.

Bloquer les pièces dans leur position définitive en les couvrant avec une planche en caoutchouc rigide et propre sur laquelle seront donnés des petits coups secs à l'aide d'un maillet en caoutchouc.

The perimeter joints shall also be taken into account at intersections and level changes.

Deben tenerse en cuenta también juntas perimetrales en los encuentros y cambios de plano.

Prévoir aussi des joints périmétraux aux angles et changements de plan.

INSTALLATION / INSTALACIÓN / INSTALLATION

On large surfaces, there shall be intermediate joints at least every 8 m, with joints at least 6 mm wide.

En grandes superficies, deberían disponerse juntas intermedias al menos cada 8 m, teniendo las juntas una anchura mínima de 6 mm.

Pour les grandes surfaces, il faudrait aussi prévoir des joints intermédiaires au moins tous les 8 m. Ces joints devront avoir une largeur minimale de 6 mm.

Excess adhesive that accumulates in the joint spaces when installing the pieces shall be cleaned before it hardens.

El exceso de adhesivo que se acumula en los espacios de las juntas al colocar las piezas debe ser limpiado antes de que se endurezca.

L'excès de mortier colle dans les espaces prévus pour les joints lors de la pose des pièces doit être nettoyé avant qu'il ne prenne.

It is important to remove the spacers between pieces before the adhesive hardens.

Es importante retirar los distanciadores entre piezas antes de que se endurezca el adhesivo.

Il est important de retirer les cales de distance entre les pièces avant que le mortier prenne.

GROUTING

REJUNTADO

REJOINTOIEMENT

All pieces shall be perfectly clean and free of dust before grouting.

Todas las piezas deben estar perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

Le rejointoiement des pièces n'est pas nécessaire après la pose.

We recommend the use of colorstuk rapid.

Se recomienda el uso de colorstuk rapid.

Il est recommandé d'utiliser le produit colorstuk rapid.

The grouting material is spread with a rubber trowel, filling joints well in all their depth.

Se extiende el material de rejunte con una llana de goma rellenando bien las juntas en toda su profundidad.

Étendre le matériau de rejointoiement à l'aide d'une taloche en caoutchouc en remplissant bien les joints dans toute sa profondeur.

The same trowel shall be used to remove excess grout.

Se utilizará la misma llana para eliminar el exceso.

La même taloche sera utilisée pour enlever l'excès de matériau.

Before the grouting material dries, its remains shall be removed with a sponge or cloth.

Antes de que fragüe el material de rejunte se deben retirar los restos del mismo con una esponja o trapo.

Les restes de matériau utilisé pour le rejointoiement doivent être retirés à l'aide d'une éponge ou d'un chiffon avant qu'il ne prenne.

Specifically for areas where the material will be in contact with water (directly or

indirectly) the use of Butech's epotech as grout material is recommended.

Específicamente para instalaciones en las que el material vaya a estar en contacto con agua (directa o indirectamente) se recomienda el uso como material de rejunte de Epotech de Butech.

Pour les installations spécifiques où il est prévu que le matériau soit en contact avec l'eau (directement ou indirectement), il est recommandé d'utiliser le matériau de rejointoiement Epotech de Butech.

CUTTING AND DRILLING

CORTE Y PERFORACIÓN

COUPE ET PERCEMENT

For small cuts and blunting, we recommend the BUTECH pliers for glass.

Para cortes pequeños y despuntados se recomienda las tenazas BUTECH para vidrio.

Pour les coupes de petite taille et les émoussements, l'utilisation de tenailles BUTECH spéciales pour pièces en verre est conseillée.

Dry cuts are carried out with the SIGMA machine.

Los cortes en seco se realizan con la máquina SIGMA.

Les coupes à sec se feront toujours avec la machine SIGMA.

Cuts in full pieces shall be carried out with a BUTECH water-cooled cutting machine with diamond disk.

Los cortes en piezas enteras se realizarán con una máquina de corte con disco de diamante BUTECH refrigerada por agua.

Les coupes de pièces complètes se feront toujours avec une machine de coupe équipée d'un disque diamant BUTECH refroidies à l'eau.
