**CERAMIC BOOK**  
**2019** 1<sup>st</sup> EDITION

## **FILOSOFÍA**

Nuestros productos cerámicos surgen de una misma filosofía: la necesidad de aportar nuevas soluciones a los problemas del hábitat. Para ello aplicamos tres máximas: innovación, calidad y diseño.

Innovación, porque somos pioneros en la adquisición e incorporación de nuevas tecnologías y aplicaciones para la cerámica.

Calidad, que solo puede ofrecer una marca que posee nuestra experiencia y afán de superación constante.

Diseño, por la creatividad que poseen nuestros productos, que abren nuevas tendencias cerámicas en diseño de interiores y exteriores.

## **INFRAESTRUCTURA**

En Porcelanosa Grupo basamos el éxito de los productos en tres premisas: una calidad absoluta, una red comercial propia y una infraestructura que engloba todos estos factores.

Para nosotros, la infraestructura es un punto clave en el éxito de nuestros productos. Nuestra intención es que en nuestras instalaciones se produzca una perfecta combinación entre funcionalidad, versatilidad y distinción.

## **DISEÑO SOSTENIBLE**

La preocupación por el cuidado del entorno y la preservación del medio ambiente han sido una prioridad constante para el Grupo PORCELANOSA desde su fundación.

La sostenibilidad de nuestro estilo de vida y su necesario equilibrio con el medio ambiente necesita de hechos concretos y acciones tangibles.

PORCELANOSA Grupo, anticipándose a esta nueva dinámica, lleva más de 40 años mejorando su sistema productivo, para minimizar su impacto en el medio ambiente.

#### PHILOSOPHY

Our ceramic tile products are all based on a single philosophy: the need to provide new solutions for habitat issues. The basis of this philosophy is threefold: innovation, quality and design.

Innovation, because we're pioneers in the acquisition and incorporation of new technologies and applications for ceramic tiles.

Quality, which only a brand with our long-standing experience and quest for ongoing improvement can offer.

Design, for the creativity of our groundbreaking products that pave the way for new trends in ceramic tiles for use in both exterior and interior designs.

#### INFRASTRUCTURE

At Porcelanosa Grupo we base the success of our products on three premises; unconditional quality, a commercial network of our own and an infrastructure to embrace all these factors.

We think the infrastructure is key to the success of our products. We want our facilities to have a perfect combination of functionality, versatility and distinction.

#### SUSTAINABLE DESIGN

Concern for the environment and the conservation of nature has always been one of the ongoing priorities for the PORCELANOSA Group.

Ensuring a sustainable lifestyle and environmental balance requires specific decisions and tangible actions.

PORCELANOSA Group has always been at the forefront of this concern, and has been working to minimise the impact of its production systems on the environment for more than 40 years.
